

NAVIGATOR[™]
PREMIUM INKJET

IT'S THE SURFACE THAT COUNTS.

But that doesn't mean we're any shallow. Actually, to come up with such outstanding results on high speed inkjet printing, it takes a lot of technology. Developed with a special surface treatment (we told you it was all about that surface!) and benefiting from the unique properties of Eucalyptus globulus, Navigator Premium Inkjet is set to guarantee the best performance. Our advanced technology extends to an impressive absorption mechanism that enhances ink surface drying and adhesion. This product is available in digital formats (SRA3, B2 and B3) as well as reels (with widths ranging from 180mm to 2200mm) and in 80g.m⁻², 90g.m⁻² and 100g.m⁻². All that you need for excellent image definition and colour contrast.
